

## The industry solution for optimization & distribution of product data

### What is Open Datacheck?

- ▶ Open Datacheck ([www.open-datacheck.de](http://www.open-datacheck.de)) is an online industry platform, through which you can check, optimize and manage your product data and provide it for the member companies of DG Haustechnik and VEG, i.e. the wholesale, as well as the craftsmen of the ZVSHK.
- ▶ You will receive individual access to the platform and can determine to which wholesalers and purchasing cooperatives your data are transmitted.
- ▶ You can also decide whether your data is to be sent directly to craftsmen (supplementary agreement for the HVAC sector).

### How does Open Datacheck work?

- ▶ You upload your product data on the basis of the currently valid industry standards to Open Datacheck. Open Datacheck provides you with the required templates.
- ▶ Open Datacheck checks the data.
- ▶ You receive a detailed examination report which you can use to identify the quality of your data and make improvements where necessary.
- ▶ As soon as your data meet the requirements, they will be forwarded to the wholesalers together with the examination report.

## Advantages for you

- ▶ Quality-checked product data according to the valid data standards of the industry.
- ▶ Availability of your product data in the systems of the wholesale trade: Development of new and securing of existing sales potentials.
- ▶ More than 80% of all wholesalers in the German speaking market use Open Datacheck.
- ▶ Fewer queries and coordination processes with the specialist departments of the various wholesalers and craftsmen.
- ▶ Access to the Knowledge Base (knowledge platform) of DG Haustechnik and the VEG with all information and help on the standards of the industry.
- ▶ Maximum acceptance of your product data by your customers.

## How can you use Open Datacheck?

- ▶ Request your participation agreement:  
By phone at 05251 | 161414 or by mail at [mail@open-datacheck.de](mailto:mail@open-datacheck.de).
- ▶ Participation in the system costs 900 € annually for suppliers.
- ▶ Visit our website: [www.open-datacheck.com](http://www.open-datacheck.com).

ITEK in cooperation with DG Haustechnik, VEG & ZVSHK
